

## EASYAIR EPS INSULATED VENTILATION DUCTING

The new range of insulated ducts is suitable for the supply and exhaust of ventilation air in homes and small public utility buildings. The products are suitable for use inside the home. Made from high-grade insulation material, these products deliver impressive thermal performance. The material is lightweight, is easy to cut and fits standard wall and roof terminals. The smart couplers guarantee an airtight connection and ensure that ducts can be mounted close together or directly against the wall while retaining their high insulation value. The smart construction and high insulation value prevent condensation in the pipes and minimise energy loss.

- High insulation value
- Fire resistance class E
- Air tightness class D
- Compact installation
- Lightweight and easy to cut
